Chris, we are working on this this morning. I am trying to pull our folks together to present you with a draft of some sort that would be helpful for you review with management. I'll keep you updated.

Marty-

Is it possible for you to send me a draft or example of what TRC wants to do for sampling confirmation? I think Mike Stephens was going to send me an example last October, but if he did, I couldn't find it. I don't think I've ever seen anything on paper. It will help me discuss options with my management. Thanks.

Chris, I want to talk with you about the project now that we have shared the sampling issues with the contractor. Are you in the office this afternoon?

Subject: Interim Measures Work Plan

Please provide a copy of the Interim Measures Work Plan and future corrective action submittals (like the RFI Addendum Report) to John Cook with KDHE/BER. He is the corrective action project manager for the state (Akhter Hossain, KDHE/BWM is the PM for permit related issues). I am hoping to brief KDHE/BER on this project sometime next week.
